

General Conditions & Use

1 - Headless Chicken is a treasure hunt backed by a cryptocurrency, the \$HLC. In the future, this currency will enable you to purchase additional quest content, such as extra clues or access to quests before others. The Treasure Hunt is a game. You can win a big amount, but you have to keep in mind that it's a game, just here to keep you busy and entertained.

2 - The winner will win 10% of the total \$HLC supply, the Headless Chicken's Head's NFT and a Ledger Key.

3 - The Ledger key containing the final winnings (10% of the total \$HLC supply and the NFT) is held by a bailiff. The contract stipulates that cryptos / NFT can be added to the ledger, but NEVER removed. And this is valid until the day someone other than the HLC team finds the 24 words securing the Ledger key.

4 - The Headless Chicken team is not responsible for any losses arising from the purchase or resale of the \$HLC token. The Headless Chicken team is not responsible for any misbehavior related to Headless Chicken quests and gameplay. Don't be an addict, behave intelligently, be human, help each other.

5 - For those who think they found the hidden code in the riddle, or want to share with us their complete solution to the riddle and the word they found, you can do so here : <https://headlesschicken.pro/contact-us/> by selecting "Headless Chicken Hunt".

6 - For the time being, the Headless Chicken team has chosen to remain anonymous. This is not definitive, and may be changed in the future to allow for greater credibility.

7 - As a user and participant, you can: participate in quests, buy and resell \$HLC (have a wallet compatible with solana e.g. phantom, ...).

8 - The \$HLC currency is basically a meme coin with no guaranteed financial or functional utility. Its value depends solely on what the community gives it. It is mainly speculative and can fluctuate widely.

9 - The winner of the treasure hunt will be the first to solve all 25 riddles and find the 24 words that unlock the Ledger key. The winner will also be the 1st to prove to us that he or she has solved all the riddles and has not "stolen" the work of another user. A detailed investigation will be carried out before the rank of "Headless Chicken Treasure Hunt Winner" is awarded.

10 - All content related to the project (visuals, puzzles, narration) is protected and may not be reproduced without permission. Members' contributions (suggestions, shares) may be used for the project.
